An update: our draft response is with OCSPP IO now. We'll let you know if any further questions from their quarter.

Thanks for the late (and responsive!) work last night, Tracy.

Thanks Tracy!

Alison/Tala - Are Tracy's comments enough to be responsive to the request? Or is the an ask to provide recommended edits to the actual document language to align the definition (based on differences identified)?

Alison - acknowledging receipt.

Tracy - I know that Tristan has been helping on this area, but I think he is gone for the day. Can you take a look and provide some high level feedback (and follow up tomorrow morning, if you need to check with Tristan).

Hi NCD – With apologies for the firedrill, we could use your assistance with the attached. Could you guys please take a look at the definition of PFAS in the attached TA (page 3) and advise how this is the same or different that our working definition and that of the OECD?

OCSPP is requesting by noon tomorrow, so the soonest you can get this to us in the morning, we'd appreciate. I've also got a request in to OCSPP to see if we can move that deadline by a few hours – but no promises on that front.

Best,
Alison

Resending with a non-SharePoint file.

Alison/Susanna,

Please see the request for OCSPP review below/attached. Greg Spraul is asking for feedback by COB tomorrow. If you can provide any feedback by noon tomorrow, that would give Mary time to run by Michal tomorrow.

Thanks,
Jonah

Subject: Last call - due COB 6/10 - Consolidated TA doc for Sen. Shaheen Emerging Contaminants/PFAS bill

All,

Thank you for all of your hard work on this TA! This is the last call before I send this TA to OW's DAA for approval. Please provide any additional edits to the shared file by COB tomorrow.

OCSPP - I am adding you to this group because of your work on PFAS definition provisions in other TA work products. Please look at how PFAS are defined on page 3 and let us know if you have any TA input on the drafter's construct.

OLEM – please double check that you are ok with ORD's comment on Page 3 in turquoise highlight.

OWM/OGWDW – This version is basically the same as the one Elizabeth sent around on June 7. I fixed a few typos.

OCIR – you have an early preview of this consolidated TA, please let me know if you have any concerns.

Attached is the combined OGWDW-OWM-OLEM TA doc. OWM's (WID) is approved by Andrew and OGWDW's by Jennifer. OLEM and ORD's TA has been cleared by their respective chains and is shown here for convenience. (OGWDW and OWM have reconciled comments with OLEM where needed based on discussion with Melanie and Stiven.)

Much of OGWDW's TA is embedded in the SDWA language version that Matt provided below the draft bill.

Thanking everyone and LMK if questions.
